

IT IS TIME TO LOOK OUT FOR SOMEBODY ELSE

Your Parish Council has agreed that Weston should adopt a scheme of mutual help during this Coronavirus emergency.

At the time of writing this we have had no confirmed cases in Weston and long may that continue. However, we are aware that a number of people are choosing to self-isolate maybe because they think they may have been in contact with an infected person or simply to minimise their chance of contact with a source of the Coronavirus. Either way some people may need help.

Some people will have friends or family close by who are willing to help them but others may not.

Weston has a reputation of help and support and the stories are legion about things Weston people did for others during wartime. Without beating about the bush, we now need some of that same spirit. This emergency is not going to be a 'here today, gone tomorrow' event, this will last for months and many of us will get affected in one way or another.

The PC therefore is asking everybody to '**look out for somebody else**'. Take a minute to think about who lives near you. Are they alone? Have they family close by? How old are they? Do you think they would like some help? Clearly if a person is self-isolating they will not want to meet face to face so pop a note through their door with your name and phone number on it and your offer of help.

Small things are important, picking up shopping or a prescription; fetching something from the village shop; posting a letter, getting a newspaper.

If you are reading this as a person who has already self-isolated or planning to do so and you are worried about any of the things mentioned above or something else your Councillors have volunteered to offer help and support. Our phone numbers are listed below. Give us a call at any reasonable time and we will do our best to help. If you are answered by a message service don't worry your message will be picked up!
